

Why Traditional Transformation Breaks

Transformation fails not because teams don't try, but because decisions still depend on gut feel and disconnected data.

 Gut Feel

 Slow Change

 Fatigue

Icon and button aren't visible.
Make them white

What Makes 3 Cubed Different

Join us in redefining how transformation happens.

I don't see any change in this,
Make the Button background white

Resources

- Resource should have 4 submenu
 - Articles and Downloads {these are published articles or documents for download} – divide this page in 2 sections
 - Case Studies {refer the Handbook/full site copy.. There are few references of case studies} – put one case study
 - FAQs {regular FAQ page }
 - Media {we will list our podcast and youtube links here }

As mentioned above make provision of items on each page which we can keep appending

About US

Shammik Gupta
Founder & CEO

Himanshu Tambe
Chief Customer Officer

Hemant Pardesi
Chief Technology Officer

Pankaj Vaish
Principal Advisor

Place LinkedIn Icon.. For each under their designation

Add 2 more in center for Harsha M and Thimoti Manyam

- Add Careers section to List Job Openings -
 - Such as Job Title – Location – Download JD – Apply button (which send mail to careers@insorce.com)

Call Us:

+91 99669 65066

Mail us for help:

Hello@insorce.com

Change “Mail us for Help “ to “Mail us”

Please also look for better font option for Call Us and Mail us, they look bit bold, good for presentation but not appealing on website

Mid-Market Business Leaders

- **Better Value:** Get consulting-caliber insights at 1/3 the cost.
- **Faster Diagnosis:** Find root causes in minutes.
- **More Assured Compliance:** Audit-ready reports every time.

BPO Leaders

- **Better Cost:** Deliver 20-35 % lower transition costs.
- **Faster Delivery:** Go-live 3x faster with AI council guidance.
- **More Assured:** Achieve 97 % SLA compliance through real-time diagnostics.

GCC Heads

- **Better Cost Management:** Simulate 100+ KPIs to tighten budgets.
- **Faster Productivity:** Lift throughput by 25% via smart workload balancing.
- **More Assured Governance:** Embed built-in control checks across functions.

Please change this and use better option to or fix this.... Its distorting user's experience
